

# ARGYLE CENTRAL SCHOOL

October 3, 2023

Dear Argyle Families,

On Friday, September 29, I was notified that the village of Argyle will install three water valves at the intersection of East Street and Route 40. The work will be done sometime between October 9-20, and the water will be shut off during the repairs.

This will impact the service to our school. While the disruption will only be a day, they cannot give us a specific date for the work right now. So, depending on the date and time, we have the following options in place:

**Leave early/late arrival** - students will be dismissed from school by noon or will have a two-hour delay the following day.

**No school/remote learning** - students will use their Chromebooks/iPads to take classes virtually.

We are taking these steps to preserve our snow days and vacation days.

We have asked for a 48-hour notice from officials. We will let our families know as soon as we have any information.

We apologize for any inconvenience that this will cause. Please contact the main office at (518) 638-8243 with any questions.

Sincerely,

James Bennefield  
Superintendent
